Review of Programming Languages

Due: Wednesday, Feb 7

Read Chapter 2 of Sebesta and record four significant facts about each of the programming languages listed below: Where possible include the date the language first appeared and the names of people (or the company or organization) associated with its development. (Please submit the assignment electronically.)

- FORTRAN
- LISP
- ALGOL 60
- COBOL
- BASIC
- PL/I
- APL
- SNOBOL
- SIMULA 67
- ALGOL 68
- Pascal
- C
- Prolog
- Ada
- Smalltalk
- C++
- Java
- Perl
- JavaScript
- PHP
- Python
- Ruby
- Lua
- C#

Identify two programming languages that have appeared in the last ten years (and are not in the list above) that you believe will prove to be widely used in the future and record four facts about each as you have done above.
