ArrayList Exercises

1. What are the contents of myList at the end of this code segment?

   ```java
   ArrayList<String> myList = new ArrayList<String>();
   myList.add("Bashful");
   myList.add("Awful");
   myList.add("Jumpy");
   myList.add("Happy");
   myList.add(2, "Doc");
   myList.add("Dopey");
   ```

2. What is the value of myList.size() after the following additional statements?

   ```java
   myList.add("Pokey");
   myList.add("Campy");
   ```

3. What are the contents of myList after these additional statements?

   ```java
   int i = myList.indexOf("Happy");
   myList.set(i, "Bouncy");
   ```

4. What are the contents of myList after these additional statements?

   ```java
   myList.remove(myList.size() - 2);
   String temp = myList.get(1);
   myList.set(1, temp.toUpperCase());
   ```
